Year 5: Art and Design –Death mask sculpting

What should I already know?

Use clay & other mouldable materials using coiling method to join 2 pieces of clay together.

Create and combine shapes eg nets or using solid materials Sculpt using clay & other mouldable materials

Key Skill -3d skills to build shapes and use of line and pattern to decorate.

Artists and Artisans – Ancient Egyptians made death masks as part of the death rituals. A **death mask** was created so that the soul would recognise its body, and return to it safely. **Death masks** were also believed to help to guard a **dead** person from evil spirits in the **afterlife**. If the **dead** person was important, their mummified body would have been put into a special wooden coffin called a sarcophagus. The most famous death mask was made for Tutankhamun. It is embellished with gold and precious stones. It is priceless because it is so precious and unique.

Techniques

Using clay – roll the clay out using a rolling pin on a clay board until it is about as thick as a pound coin.

Cut around a paper template of a mask laid on the clay using a clay knife.

Decorate the clay by drawing pressing shapes/lines/textures into the clay.

Lay the mask over a mould made from balls of newspaper/paper.

Let it dry over a few days.

When completely dry remove the mould and decorate with paint mixed with PVA glue.
